

VISION GUARD

FIRE, RISK & EMERGENCY MANAGEMENT MODULE

Detect early. Respond instantly. Prevent disasters.

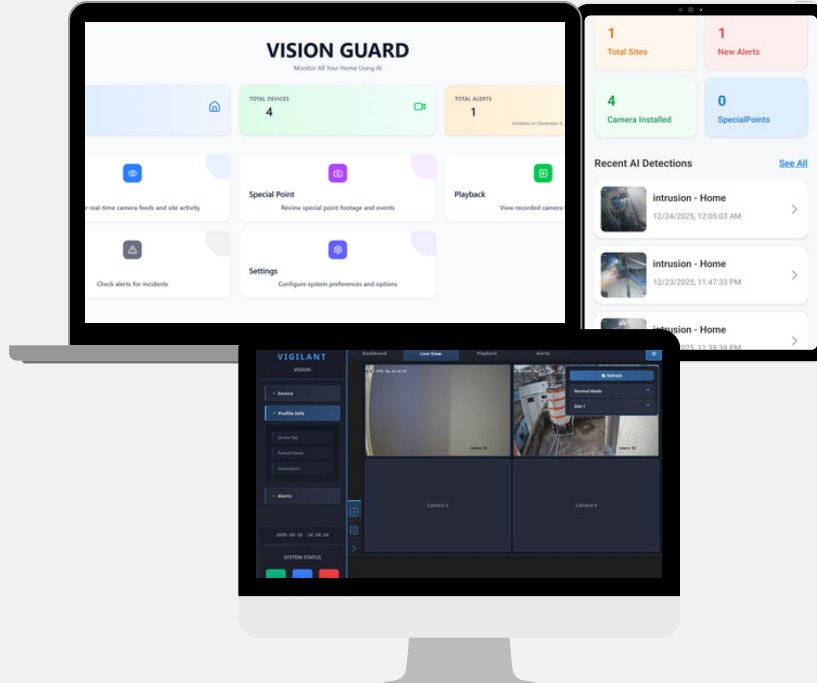

The Fire, Risk & Emergency Management Module delivers advanced AI-powered monitoring to detect fire, smoke, heat anomalies, and high-risk situations in real time.

Built for safety-critical environments, the system ensures faster response times, minimizes damage, and enhances overall site safety through automated alerts and centralized monitoring.

Empower your site with AI-driven safety intelligence designed to identify risks, trigger instant alerts, and enable rapid emergency response — before incidents escalate.

DASHBOARD ANALYTICS

VISIONGUARD PRO ELITE X2™

1.  Enterprise-Grade AI Edge Processor
2.  Real-Time Intrusion Detection & Alerts
3.  Works with Existing CCTV Infrastructure
4.  Local Processing (No Cloud Dependency)
5.  24/7 Continuous Monitoring
6.  Secure On-Site Data Storage

 Installation Time: 1-3 Days

 Deployment Support: Remote + On-Site Options

WHY FIRE, RISK & EMERGENCY MANAGEMENT MODULE?

-  **Early Fire & Risk Detection**
Identify threats before they become critical incidents
-  **Instant Emergency Alerts**
Real-time notifications with actionable visual evidence
-  **Enhanced Safety Compliance**
Support audits, reporting, and regulatory requirements
-  **Centralized Safety Monitoring**
Manage all alerts and events from one dashboard
-  **Rapid Deployment & Integration**
Quick setup with existing CCTV infrastructure
-  **Scalable & Cost-Efficient**
Adaptable for sites of any size with minimal overhead

HOW WE WORK

01

Analyze

We assess your site layout, perimeter boundaries, access points, and critical assets to plan camera and sensor placements.

02

Deploy

Our team installs AI surveillance units and edge devices — fully wireless, integrated with your control room, and with zero disruption to your operations.

03

Monitor

Live footage, fire alerts, intrusion detections, and entry point events are continuously streamed to your centralized dashboard.

04

Alert & Report

AI flags any breach, fire, or unusual behavior instantly — with image/video alerts and logs stored locally for up to 6 months.

FIRE, SMOKE & HEAT ANOMALY DETECTION

- Detect early signs of fire, smoke, and abnormal heat patterns
- AI-based analysis for faster and more accurate detection
- Reduces false alarms compared to traditional systems

EMERGENCY ALERTS WITH VISUAL PROOF

- Instant alerts with image/video evidence
- Notify control room and on-site teams in real time
- Enables faster and informed decision-making

HIGH-RISK ZONE MONITORING

- Continuous surveillance of critical and hazardous areas
- Ideal for substations, fuel storage, and industrial zones
- Detect unsafe conditions before escalation

INCIDENT LOGS & AUDIT REPORTS

- Automatic logging of all safety events
- Generate reports for compliance and audits
- Maintain historical records for analysis and review

IDEAL FOR

1. ✓ Construction Sites
2. ✓ Warehouses & Industrial Facilities
3. ✓ Residential Societies & Apartments
4. ✓ Corporate Offices & IT Parks
5. ✓ Critical Infrastructure (Substations, Highways, etc.)

**CERTIFIED FOR SAFETY,
QUALITY & COMPLIANCE**

#startupindia

WHY CHOOSE US

Intelligent Fire & Risk Detection

AI that spots fire, smoke, and anomalies instantly — before they turn critical

On-Site Edge Intelligence

No cloud delays — fast, reliable processing directly at your location

Unified Command Dashboard

Monitor incidents, analyze trends, and generate reports from one powerful control center

Total Data Security & Ownership

All data stored on-site — सुरक्षित, private, and fully under your control

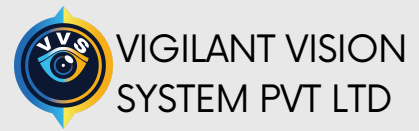

Ready for Multi-Site Expansion

Seamlessly scale across multiple locations with centralized visibility

AFTER SALES SERVICES

- 24/7 Customer Support
- Remote Diagnostics and Troubleshooting
- Regular Software Updates
- Comprehensive Warranty and Repairs
- Realtime time service tracking through CRM
