HOW WE WORK

01

Analyze

We assess your site layout, perimeter boundaries, access points, and critical assets to plan camera and sensor placements.

02

Deploy

Our team installs AI surveillance units and edge devices — fully wireless, integrated with your control room, and with zero disruption to your operations.

03

Monitor

Live footage, fire alerts, intrusion detections, and entry point events are continuously streamed to your centralized dashboard.

04

Alert & Report

AI flags any breach, fire, or unusual behavior instantly — with image/video alerts and logs stored locally for up to 6 months.
